

E.S.A.'s UNIQUE

MASTERS PROGRESSION PATHWAY

Students who graduate from the B.S. Entrepreneurship program of the ESA, have the option of automatically progressing to a Masters program from the School's partner universities in the U.K., Australia, and the USA. ESA students need not take an entrance exam as long as they secure a recommendation from ESA and meet the minimum grade point average of C+ or B, depending on the partner university. This is a unique feature available only to ESA students given the school's international linkages and partnerships. Start planning for your 1-2 year abroad! Below are your options.

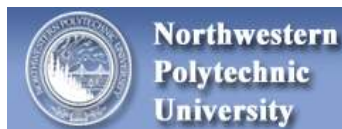

1. University of Portsmouth (UK)

- MSc Marketing
- MSc Multimedia Marketing
- MSc International Human Resource Management
- MSc Business Economics
- MSc Business Economics, Finance & Banking
- MSc Business Economics with E-Banking
